

5 Ways to Ensure a Safe, Seamless Campus Experience for a New Hybrid Normal

TRANSACT 

1 Use mobile solutions to facilitate contactless payments

Limit interactions with cashiers and eliminate cash exchange by allowing students to process their own payment on their mobile device via a mobile ordering app or their student ID mobile credential.

Using mobile ordering, campuses can...

- Move pickup locations to curbside
- Provide faster transaction processing
- Lessen the need to touch a public device
- Reduce crowds

2 Manage how many students can be physically present at any given time and place

Capacity management allows campuses to...

- Schedule day & time for access
- Limit the number of students per time slot
- Set window of time for arrival
- Scan in & out to view how many students are present
- Set maximum capacity limits

Using mobile ordering, campuses can manage...

- Dining hall reservations
- Campus move-in day
- Course material pick-up
- Facility use – Library reservations, mailroom, recreation center

3 Keep your students informed with critical updates

Use push notifications & inbox messages to...

- Move dining pickup locations to better facilitate a long-term hybrid normal
- Provide updates to scheduled changes, restricted areas, & safety protocols
- Enable capacity planning reminders for arrival and departure times

4 Provide a 24/7 virtual card office to reduce/eliminate in-person visits

Student card office can...

- Engage with students prior to arrival on campus
- Reduce time students may spend in the ID provisioning process
- Provision Mobile Credentials to students on demand, anywhere, twenty four hours a day!

3 Self-service features:

Mobile Credential

eAccounts with Web Deposits & Card Management

Online Photo Submission

5 Manage access rights & improve operations

Campus security or other administrative staff can...

- Validate student access rights in remote locations
- Verify a person's current relationship to your institution
- Manage entry control to facilities and events
